# Jamal Khadir

jamalkhadir@gmail.com | 929-231-4441 | github.com/jamalkhadir | jamalkhadir.github.io

## EXPERIENCE

**Achievement First** **Brooklyn, NY**
*4th Grade Teacher* *Nov 2025 – Sep 2026*

- Led three 4th grade classes in daily core math and computer instruction, sharpening their skills and knowledge
- Leveraged Illuminate to analyze data from previous math assessments and quizzes to identify gaps in learning
- Facilitated data-driven group instruction and created curated content, boosting math proficiency by 15%
- Integrated Google Classroom, IXL Math, Kahoot, and Amplify to boost student engagement by 30%

**Success Academy** **New York, NY**
*3rd Grade Teacher* *May 2025 – Aug 2025*

- Led a 3rd grade ICT class of 30 students in Math, ELA, and Technology, improving overall critical thinking skills
- Implemented engaging lesson plans to increase student engagement and participation by over 20%
- Integrated ParentSquare for open lines of communication between teacher, student, and parents
- Participated in professional development training to master principles of classroom management

**Grassroots Grocery** **Bronx, NY**
*Software Engineer Intern* *Dec 2023 – May 2024*

- Built out web features for a food donation company started by a middle school teacher in the Bronx who saw an increase in his students having food emergencies and struggling with access to food banks
- Developed a digital rewards system, boosting volunteer engagement at food donation events by over 30%
- Leveraged Python to create scripts for efficient data filtering, improving website processing speeds by over 25%

**Fordham University** **New York, NY**
*Computer Science Teaching Assistant* *Aug 2022 – May 2023*

- Led groups of students that were learning C++ by reviewing lectures/homework, and spearheading discussions
- Clarified areas of confusion and addressed all questions to sharpen understanding of complex topics
- Accomplished better retention of material proven through an increase in the mean final grade by 6%

## PROJECTS

**Live Chat Application** *ReactJS, NodeJS, JavaScript, SocketIO, HTML, CSS* jamalkhadir-chatapp.netlify.app

- Developed a full-stack chat application which connects users end-to-end within various rooms
- Implemented ReactJS for the front-end and improved back-end functionality using SocketIO, eliminating unnecessary HTTP requests and improving server response times by 60%
- Deployed front-end on Netlify and back-end on Heroku

**Crypto Currents** *ReactJS, NextJS, JavaScript, HTML, CSS* crypto-currents.vercel.app

- Created a dynamic service to effectively display real-time data about cryptocurrencies using the CoinGecko API
- Used ReactJS for the front-end and leveraged NextJS for the back-end to optimize code splitting and server-side rendering, reducing latency by over 50%
- Deployed to production using Vercel

**Codle** *ReactJS, NodeJS, JavaScript, HTML, CSS* jamalkhadir.github.io/Codle

- Recreated the game “Wordle” in which a user has 6 guesses to determine a randomly generated 5-letter word while receiving hints based on the words they guessed, but redeveloped with only coding-related words
- Improved accessibility by building a fully functional on-screen keyboard for both computer and mobile users

## SKILLS

**Programming Languages:** C++, C, Java, Python, JavaScript, TypeScript, HTML, CSS, SQL
**Technologies:** ReactJS, NodeJS, NextJS, Express, MySQL, MongoDB, Linux, Unix, Git

## EDUCATION

**Fordham University** **New York, NY**
*B.S. in Computer Science* *Aug 2020 – May 2024*

- GPA: 3.8/4.0 | Honors: *Magna Cum Laude*, Phi Kappa Phi Honor Society, 3 Years on the Dean’s List
